APAAC MISSION:

Empowering Arizona's prosecutors to administer justice and contribute to public safety through training and advocacy.

CORE VALUES:

Through its constitution, Arizonans prioritized the goals for elected prosecutors: achieving justice, serving victims and balancing the needs of the community. To ensure the independence to reach those goals, prosecutorial discretion must be honored in all legislative and budgetary considerations. As the standard bearers for administering justice and preserving public safety, prosecutors are a most trustworthy resource for making legislative improvements to the criminal justice system.

POLICY STATEMENT:

APAAC, as Arizona's prosecutor coordinator, recognizes that often criminal behaviors arise as the result of substance abuse and behavioral health challenges. We acknowledge that early interventions along with appropriate prevention and treatment measures and educational programs can and do reduce the burden on the criminal justice system. In those cases that result in a chargeable crime by a drug-involved individual APAAC supports intervention options directed to changing those behaviors, such as residential treatment, therapeutic community treatment, wrap-around services and court supervised drug monitoring.

It is crucial that prevention and treatment capacity, whether community or government based, is at a level appropriate to enable implementation of prison alternatives and available in both the urban and rural areas. Assessing and identifying offenders that can substantially benefit and have the capability to turn away from crime will positively impact the community and reduce incarceration. Where appropriate victims should be involved in the process.
